

CONSTRUCTION

MAGNA MB720/ MB720S

The **Magna MB720** pattern is specially designed for compactors in construction applications. The even tread wear for greater durability. This tyre offers not only excellent damping and compaction performance, but also ideal flotation and traction performance.

The **Magna MB720S** is suitable for vibrating roller application on numerous types of pavement materials. The tyre features even wear and reduced ground pressure, which improves both compaction performance and durability.

The tread pattern offers excellent traction and flotation.

All cross ply construction with an improved load performance and enhanced operator comfort.

New improved technology of the high-tech casing reduces heat build up inside the tyre.

Tyre Size	Pattern	Tyre type	PLY rating	Max speed (km/h)	Load speed index	Single max. load/pressure	Overall diameter (mm)	Section width (mm)	Tread depth (mm)	Rim
23.1-26	MB720	TL	12	30	125A6	3655 kg/ 1.7 bar	1500	595	16	DW20
				10	165A2	5150 kg/ 2.0 bar				
11.00-20	MB720S	TT	18	10	169A2	5800 kg/ 8.25 bar	1080	290	22	8.00
